GOLD DOLLARS

700. 1861 D Mint. The last and rarest date from the Dahlonega Mint, as well as the rarest and most difficult to obtain in choice condition in the entire Gold Dollar series.

This specimen is in choice Extremely Fine condition showing little or no wear. As usual, it has characteristic die weaknesses though a much sharper than usual date.

Recent auction records for Very Fine specimens slightly over \$3,000.00. This Extremely Fine coin should be in great demand and realize over \$4,000.00

HALF EAGLES (\$5.00 GOLD)

718. 1829 Large Date. Obverse will grade Fine or better. Reverse is plain and readable but has been repaired as coin has evidently been soldered and used as some type of jewelry or decoration. Not a gem or even choice but it is of such great rarity it is practically unobtainable.

This Large Date variety is unpriced in the catalogue whereas the Small Date shows an auction record of \$21,500.00. Authorities claim only four or five specimens known. Be this as it may, it is of great rarity and has been offered far less frequently than the Small Date. Even in this coin's repaired condition, its great rarity should command a price of over \$7,500.00
